**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-2, 4-11, 13-14 and 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kwun (patent no. 5767766) in view of Preamprasitchai (patent no. 6139052).

As per claims 1-2, 4-11, 13-14 and 16-20, the claimed limitations have been met by the Kwun reference for the reasons set forth in the last office action with the exception of the feature of performing at least one countermeasure in response to an occupant status generated by an occupant sensor as amended. However, such missing feature in Kwun is extremely well known in the art and clearly taught in figure 1 (item 135) and column 3, lines 26-28 of the Preamprasitchai reference. It would have been readily apparent for one skilled in the art to

Art Unit: 3661

incorporate such well known feature as taught in Preamprasitchai reference into the Kwun system so that the countermeasure or airbag can be more accurately deployed.

4. Claims 3 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kwun and Preamprasitchai as applied to claims 1-2, 4-11, 13-14 and 16-20 above, and further in view of Gillis et al (patent no. 5445412).

As per claims 3 and 12, the additionally claimed feature of having the discretized patch sensors in a composite form is well known in the art and clearly taught in figure 2 of the Gillis et al reference. A person having ordinary skill in the art would have been motivated to incorporate such well known feature as taught in Gillis et al into the Kwun system so that the arrangement of the sensors can be facilitated.

5. Claim 15 is currently considered allowable over the art of record.

6. Applicant's arguments with respect to claims 1-14 and 16-20 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3661

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
